Geomorphological Word Salad

Intracortical robed gymnosperm's with the pH balanced
mereology of a lobular, meta-magical

flaring like a brazen-bull in a bleached, patternless (no
arithmetic progression), Starry Night tuxedo

Courtyards of hemorrhaging salteen crackers lobotomized

so aptly translated into forestry with the diathesis-stress
model of noise music.

Clearwater Calculations

Inuksuk landscapes as cryptic as the Western Wall —
chasms of Canadian collective consciousness
cascade as if pre-semiotic
Fear ricocheted down a dilapidated waterfall islet.
Kayaking above the subconsciously eternal landlocked
Plutonic constellations;
Geometric pulses titillate drunken semicircles.
The Clearwater fauna welded into model
food courts — its wordiness.
A moose jaw's numerology — a coniferous pattern is ever-present in its calculations.
Senseless cool fennel dry heaves all edibility present in the Montessori margarine's hippo-campus;
lunar lungs pathologically psychodynamic juices flagrant.
Alas, all the beings present in Canada
metrically quiver trisections.

neuro-gnosis plasmid dyspraxic morphemes overheated like canned chili pot mealworm fractioned from the Nechako alfalfa gesticulate hookah's of eurhythmic libido with the Human-Condition syndrome of an inverted Guardia festering in the womyn's urinal during AD 8000. The intergenerational dyslexia of Solomon's barbiturates tea-bag bludgeons of Journeyman explosive sympathetic nervous system self-sustaining units like fellatio-instantiated Mortimer's Geneva vacation.

Para-thrusting from the Zenoan distance bilaterally east to the encephalic labia's location in the Mindscape. Ojibwa granulated December-esque marmalades speak in Marfan tongues of genderless Horatio's multi-gender cubicles sporing bodily fluids: epiphenomenal social organisms group masturbate recidivism in a gifted Krishna primus' node-network south-center towards ontological independences if and only if Sigmund Freud is the prophet of Kelloggian Yukon hermeneutics.

Maximally Non-Existentially Imported Beings guzzle the homunculus pancake-snorting the healing of the pan-gendered soul's c-fiber to pull the locket behind the monodeistic, thought-controlled stall. Animism of menstruating logorrhea that is teleologically in the bodily forms of an ideonomical calculator with the automatism of Thalean moisture, its symbiosis with the un-clothed gymnasium artifacts, its blood drinking of Papa Smurf's paternalistic psychobabble: hirustisic water that every possible deviancy drinks.

The Brown Eyed Womyn I Met the Other Day

There's a bench with Titus Tatius' vibrio vomit hues, a
woman with olive-toned medusae:
Infinitesimal Original Sins ladder up her Absolute
Nothingness-pitched neck with the curvature of
my counter-factual epsilon by the name of Laurentino: his
Euclidean lines.
Pyromaniac corneas fistulas lingerie doted glitch art. There's
a minimalist nebulae in the scrotum
of the synthetic pesos mold
Who have declared theocracy on the astral cerebral fluid.
Ape-men crawl on all fours in the Pygmalion ashtray.
Womb-men with inflatable phalluses adjacent to their
extracted edibility
Buckle down on Brazilian waxed scooters sculpted at their
oriental hips
With a basketful of Ruby chocolate teeth just about as
magnanimous as
The Bio-Hybrid beaver teeth infesting Ginter's with scurvy
Like the synchronism infesting my
pre-mortal Dopamine 3 receptors.

Transgender Aldergrove

Nov. 9th,

The anticlimactic periods of testicular paredolia cocooned Klein bottles of euphoria comorbid to four AM Existential freedom. Staccato wardrobes of microscopic, pre-mortally deterministic atomistic tissue shelved tumors of waterfront gyro-morphic finger-chords, itineraries of Draconian freshly-cut post-notes paraded topless over my psychometric night-stand. Bottomless, toe-jam greased wallpapers were jaded in the centurial membrane of meteoric Mennonites.

Ya see, these mammalian flanks of primatology, or, as my androphobic father-in-law labelled them: "post-placental chestnuts" were sunbathing, tangled in a coveted statue; a miniature whirly beard tangled with abscesses of genteel tooth-decay rolled over my breathless curtain of mirrors with much action-potential. It was as if a syllabus rolled like a gentle tunic in cartwheels between the creases of an estrogenic lambda.

Genital-to-scrotum, I submerged the tabula rasa omanliness of a buttressed wandering womb like finger-tipping: like a transcendental-buttered, hyper-realistic body double of praecoxic genesis portions: to inebriate

the thanatopsis of male-spaced urinals were the social Darwinism some centurial multiplicands chalked v-necks, roller-coastering their urine into the charm lade of myopic information therapy.

Millwood coliseum buses bugle panphiliac roads of schizophrenic teleology, nauseated Millwood Schizoverse centers cauldron billboards of magnesia that ointment-anthropod's leech. This crossfertilized urinal is so torrentially pleasurable, that a cosmogenesis of alpha-beta waves symbiogenesize the androphilic iconic floor tile's quiddity experience.

Gynecological bedwetting harems of didactic private experience seashell cucumbers of first-come, first-serve urinal cakes; a porridge of hyper-amnesic soap with the skeletal bones of all of Greenland, are spilling out an erotic trans-world identity by the tidal waves. Tonight's a gentle night to plumage the Sybil frost, and take a bus ride that tidals like a throat band super-gluing aleph numeric fingernails — an osmotic trunk of a Lucretian river bend kneeling the sand pipes of post-gender teleology, the Brethren idol afloat in the celluitic, underwater trenches of aspartame.

Meta-Cognitive Grodornas

Barbell-toothed, Cattolican Hagia, arachnid-esophageal
Sophia's are the putrid, winged-pad husk

of incorrigibly moral laws of nature: a chiropractic, Jesuit

where glossolalic Play-Dough wrings its
Georgian-scripted globus,

and a sea of disability crashes like a Geodesic dome of
gingivitis,

suffering flu-like symptoms because of the islands of
Rocket Man,

where the liquids of the levels of consciousness
microscopically sublimate an antithesis-synthesis of
endemic okra

leveling above the craniums of bodily fluid playing
symbolically with their ice-berg lettuce nakedness

until the Comet Hyakutake is still-born

in the birth canal of Galean-inspired mesoderm not of
Bouban religious delusions,

but swaths of three point three repeating: its subliminal
messages converted twight the Great Flood
of polyglottic Oceania's — co-conspirators in a lumberjack
funnel's critical periods,

whose dimorphism will consist of an omega-3-rich uterus:

Canadiana dreamscape.*" (translated).
